

KLIX

TECHNICAL RIDER - DJ SET

Version 2026

KLIX is a techno DJ / producer based in Liège, Belgium. This rider applies to a solo DJ set performance. Please contact the artist in advance in case any item below cannot be provided.

Artist / Project	KLIX
Performance format	Solo DJ set
Style	Hypnotic / immersive techno
Typical set length	60 to 120 minutes
Based in	Liège, Belgium
Contact	To be completed by artist (email / phone)

1. Preferred DJ setup

- 2 or 3 Pioneer CDJ-2000NXS2 / CDJ-3000 (or equivalent professional media players)
- 1 Pioneer DJM-900NXS2 / DJM-A9 / DJM-V10 (or equivalent professional club mixer)

• Serato DJ Pro-compatible setup

- Stable and properly lit DJ booth

2. Acceptable alternatives

- A high-quality all-in-one standalone setup such as Pioneer XDJ-XZ can be accepted if agreed in advance.
- If the exact mixer / players are unavailable, please provide the closest professional club-standard alternative and inform the artist beforehand.

3. Audio / stage requirements

- 1 pair of booth monitors clearly audible from the DJ position
- Professional front-of-house sound system adapted to the venue
- Safe and stable power supply near the booth
- Clear access to the DJ booth before the set for soundcheck / Serato setup testing

4. Booth requirements

- Enough space for comfortable operation of players, mixer and laptop
- Clean surface and safe cable management
- Reasonable lighting at the booth (enough to read equipment if needed)
- 1 still bottle of water

5. Notes

- The artist performs a DJ set and does not require a full live electronic setup for this rider.
- If recording of the performance is planned, this can be discussed in advance.
- Any major technical change should be communicated ahead of time.

This document is intentionally simple and suitable for artist profile submissions and first contact with promoters.
